### Bulkhead Fittings

- Available in sizes from 1/2" to 4" NPT fittings
- Bulkheads are suitable for tanks that allow for a fitting to pass into the tank by lid/opening
- Available in female threads
- Bolted bulkheads available for longer lasting and more durable fitting installation
- Stainless steel fittings available in 1", 2" and 3" NPT sizes.
- When selecting a bulkhead, the tank radius must be considered.

A steeper radius would only allow smaller fittings to seal.

- Contact factory for special fitting requests

#### Sales and Marketing Policies:

Quality Molded Plastics Ltd. products and components are sold to original equipment manufacturers and authorized retailers (dealers). These products and components are available to the end user through retailers and equipment dealerships. Prices shown are manufacturer's suggested retail prices (MSRP). Dealer prices may vary.

#### Warranty:

Quality Molded Plastics Ltd. warrants that its products are free of defects in material and workmanship for a period of two years from the date of original purchase. Within this period, Quality Molded Plastics Ltd. will repair or replace at its discretion, a claimed defective product or part up to the net value of the original sale without charge, exclusive of any other charges, but not limited to, items such as freight. Out purchased components included or installed at customer request on the original bill of sale are subject to the warranty terms of the actual manufacturer. The foregoing warranties are an abridge digest of all other warranties, written or expressed, including, but not limited to, those concerning suitability for a particular purpose. Quality Molded Plastics Ltd. complete Terms and Conditions of Sale are found at [www.qualitymoldedplastics.com](http://www.qualitymoldedplastics.com). Claims under these warranties must be made promptly, at a maximum within two (2) years after receipt of goods by the buyer. Any warranty action by the buyer must be expressly pre-authorized by Quality Molded Plastics Ltd. .

#### Limitation of Liability:

Except for claims for bodily injury, Quality Molded Plastics Ltd. liability for any and all claims arising out of the purchase of the product shall not exceed the billed or billable value of the product. In no case will Quality Molded Plastics Ltd. be liable for any consequential damages or loss of profit, even if Quality Molded Plastics Ltd has been advised of the possibility of such damages.

By purchasing Quality Molded Plastics Ltd. ("QMP") product(s) and transporting said product(s) from QMP property, any damage due to the mishandling of the product(s), insufficient securing of load, or using incorrect equipment to move the product(s) after delivery is in no way QMP's liability. As soon as product is shipped from QMP premises, all liability of product(s) lies with the customer and/or the carrier who is transporting the product(s).

#### Technical Assistance:

Quality Molded Plastics Ltd. personnel are available to provide technical and design assistance in the choice and use of products and parts furnished to the buyer. Quality Molded Plastics Ltd. assumes no obligation or liability for any such advice, or any consequences occurring as a result of the application of such advice. The buyer is solely responsible for the selection of the appropriate product(s) and/or parts and the appropriate application to the intended end use.

For Full Terms and Conditions, Refer to [www.qualitymoldedplastics.com](http://www.qualitymoldedplastics.com).

Better Engineered Products from Planning to Production

## Quality Molded Plastics Ltd. Custom Mold Fabrication and Rotational Molding

*Quality Molded Plastic's robust team is determined to lead the industry of rotationally molded products and exceed customer expectations through innovative design, technical service, practical expertise, and exceptional product quality.*

### Extensive design and molding experience

With over 30 years of rotational molding expertise, Quality Molded Plastics Ltd. (QMP) combines engineering knowledge with real-world manufacturing insight to take your concept from idea to finished product. We design with production in mind—optimizing performance, durability, and cost-efficiency while preventing issues before they arise. Creative problem-solving, practical experience, and technical precision ensure your product is built right the first time.

### Highly Experienced Craftsmen

Exceptional molds start with exceptional skill. QMP's engineers and seasoned metal craftsmen design, fabricate, and maintain precision molds that consistently produce high-quality plastic components. Their hands-on expertise ensures durability, accuracy, and long-term performance.

### Capacity

Our fully integrated, in-house mold shop supports faster timelines and complete quality control. QMP fabricates, modifies, and maintains sheet aluminum, steel, and stainless steel molds up to 2,000 cubic feet. We also provide in-house surface treatments—including sandblasting, polishing, and shot peening—delivering turnkey capability from mold build to production-ready performance.
